

TOURTURF® RESILIENCY

TourTurf®
 The best for your turf

For more info

TourTurf® MicroPlex + LPT

Oxide: 0-0-0 + 2 % Cu

Fully EDTA chelated micronutrient fertiliser for sports turf, for rapid uptake.

TourTurf® MicroPlex + LPT Leaf Penetrant Technology is a liquid micronutrient-fertiliser with fully EDTA-chelated micronutrients and aromatic plant oils that ensures a quick uptake into turf roots and via the leaves. Use TourTurf® MicroPlex to provide all the essential micronutrients and to balance any micronutrient deficiency.

The fertiliser comes with seven different important micronutrients, copper and LPT. The LPT system ensures uptake in the plant after just 1 minute and full uptake after only 20 minutes. This unique combination will help to always optimize plant health.

Because the liquid is a broad-spectrum chelated product it is ideal for tank mixing with other fertiliser products. The material is only slightly acidic which has the advantages to turf managers that follow a high microbial programme and do not want to acidify any more.

The product can be used all year round to ensure the turf is fully supplied with micronutrients and doesn't suffer a deficiency at any time. Together with general turf management this will help the turf to be at its best performance every day.

Guaranteed content

Total Nitrogen (N)	0.3%
- of which Nitrate (N).....	0.3%
Sulphur (SO ₃).....	3.0%
Magnesium (MgO)	0.5%
Zinc (Zn) EDTA Chelated	0.5%
Manganese (Mn) EDTA Chelated.....	1.0%
Copper (Cu) EDTA Chelated	2.0%
Boron (B).....	0.02%
Molybdenum (Mo)	0.02%
Other elements:	
Surfactants.....	5.0%
LPT*	2.0%

pH: 6.5

Density: 1.16

Nozzles: Spray nozzles for small or larger droplets.

*The product contains TourTurf® LPT. For more information, please see the datasheet or locate the product in the catalogue.

Application

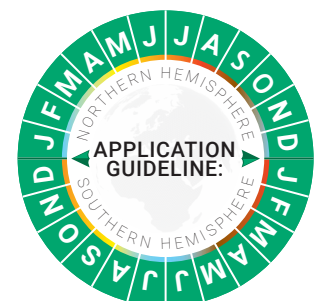

Greens & Tees/Deficiency:
Every 2 weeks.
Fairways & Stadions: Every 4 weeks.

Greens & Tees: 10L/ha mixed in 700 L water.
Fairways & Stadions: 10L/ha mixed in 700 L water.
Deficiency: 20L/ha mixed in 700 L water.
